Persons Served

Contacts This Reporting Period

13

Total number of new persons contacted this reporting period (9+10) [Q11]

← 4 Number of persons contacted this reporting period in a PATH Street Outreach project [Q9]

← 9 Number of persons contacted this reporting period in a PATH Services Only project [Q10]

30

Instances of contact, from first contact until the date of enrollment, for all active clients who became enrolled this reporting period [Q12]

Eligibility Status and Reporting Year

13

Number with active, enrolled PATH status at any point during the reporting period [Q15]

← 8 Number of persons contacted this reporting period who became enrolled in PATH [Q14]

← 5 Persons who became enrolled in PATH before the FY [Q15 - Q14]

500

Number of persons contacted by PATH-funded staff this reporting period [Q8]

0

Number of persons contacted this reporting period who could not be enrolled because of ineligibility for PATH [Q13]

Number of persons with active, enrolled PATH status at any point during the reporting period [Q15]

Employment assistance [18a7/18b7]	0	0.0%	0	0.0%
Medical insurance [18a8/18b8]	0	0.0%	0	0.0%

This table reports the unduplicated total number of enrolled PATH clients who received a referral for each PATH service and of those receiving a referral, how many attained the service from the referral during the reporting period. Individuals who received more than one type of services are recorded once in all service categories that apply.

One of PATH's program goals is to link clients to mental health services. A positive outcome would be to see enrollment rates in mental health services increase from entry to exit, indicating that a greater percentage of clients are enrolled in these services at exit than at the start of their PATH program entry. The graph shows the rate of change in mental health services enrollment among all PATH clients at entry and among exited clients, by provider.

Green bars represent increases in the percentage of clients enrolled in mental health services, whereas red bars represent a decrease in the percentage of clients enrolled in mental health services. Larger bars indicate greater changes in mental health services enrollment rates. To evaluate the outcomes for each provider on this measure, rate changes are only shown for clients who have completed their PATH enrollments.

Service Outcomes - At Entry and at *Exit - Mental Health Services [Q26a]
**The percentage at exit includes only exiters who were actively enrolled in PATH at some point during the FY.*

National	26,149	36.9%	19,217	95.4%

Outcomes

One of PATH's program goals is to link clients to substance abuse services. Enrollment rates should generally increase from entry to exit, indicating that a greater percentage of clients are enrolled in substance abuse services at program exit than at the start of their PATH program entry. The graph shows the rate of change in substance abuse services enrollment for PATH clients at entry and among exited clients, by provider.

Green bars represent increases in the percentage of clients enrolled in substance abuse services, whereas red bars represent a decrease in the percentage of clients enrolled in substance abuse services. Larger bars indicate greater changes in Substance Abuse services enrollment rates. To evaluate the outcomes for each provider on this measure, rate changes are only shown for clients who have completed their PATH enrollments.

Service Outcomes - At Entry and at *Exit - Substance Abuse Services [Q27a]
